## 2015 May, Volunteer Profile:

**1-Name:** Manon Mounier

**2-Nationality:** French

**3-Education/profession:** Student

**4-Age:** 19 years

**5-Length of Volunteering:** 9 months

**6-Describe you favorite day:** During my 9 months of volunteering I had the chance to see two gibbon couples released into the wild, and these days were for sure my best here. It is an incredible moment to see a gibbon that spent many years in captivity climb into the trees for the

first time. It is also very interesting to observe them the day just after the released, to see the gibbons explore their new environment.

**7-Describe your funniest moment at GRP:** To observe the juveniles is very funny. When I arrived there were five juveniles in the group. Young gibbons are playful. I could spend hours watching them. They jump around and chase each other; they fall down as well.

**8-Describe one of the gibbon/langur characters that you feel you have gotten to know a little bit during your stay here:** I think I would say Payu, maybe because I have seen him both in the cage and in the forest. I find him to be a very nice gibbon, a good boyfriend, and not aggressive to people. I spent a lot of time in the forest observing him after the release. He is smart and curious.
